CPYRGHT

I was one of the many Americans who helped crucify the late Sen. Joe McCarthy when he tried to warn us about Americans in our central intelligence agency and the state department, who were working for the communist cause.

Today I hang my head in shame when it has been revealed that one of our diplomats has been spying for the Communists for 18 years.

The truth is coming out too; that we have Communists in almost all branches of the Pentagon. Now, at last, Sen. McCarthy has been proved right.

We Americans have our heads in the sand all the time, and we just can't believe that any well known American can be a traitor.

When will we wake up? When it's too late?

MRS. GEORGIA KOLLMAN
